

National Safety Day Celebrations - 2026

SOUVENIR

About Safety Day / Month Celebrations

The National Safety Council (NSC) was founded on 4 March 1966 under the Societies Registration Act of 1860 as an independent, non-profit organization committed to promoting safety and health at workplaces and within communities. Established by the Ministry of Labour, Government of India, the NSC's core mission has been to minimize accidents and foster a strong culture of safety awareness across the country.

To emphasize the importance of safety and accident prevention, the NSC designated 4 March as National Safety Day. The first National Safety Day was celebrated on 4 March 1972. Since then, it has been observed every year, with the NSC spearheading a wide range of initiatives to strengthen safety practices in industries, workplaces, and public spaces.

These initiatives include seminars, workshops, training sessions, exhibitions, competitions, and awareness drives focused on various safety domains – industrial safety, road safety, fire prevention, environmental protection, and more. Over time, National Safety Day has grown into a major national event, drawing participation from government bodies, industry groups, trade unions, and numerous other stakeholders.

The observance serves as a meaningful platform to emphasize the value of safety, exchange best practices, and encourage collective action towards reducing accidents and enhancing the well-being of workers as well as the general public.

Theme of the Year - 2026

Engage, Educate & Empower People to Enhance Safety

Caption for National Safety Day Celebrations

AmrutUtsav

On the occasion of National Safety Day, I reaffirm our unwavering commitment to safety as a fundamental value of our organization. The well-being of our people remains at the heart of all our decisions and actions. Safety is achieved through awareness, discipline, and shared responsibility at every level. By consistently following safe practices at work and in our daily lives, we not only protect lives but also build trust, resilience, and sustainable growth. Let us collectively strengthen our safety culture and make safety a way of life.

Dr. Krishna Prasad Chigurupati
Chairman & Managing Director

Process Safety Management

National Safety Day serves as an important reminder of our responsibility toward our people, communities, and the environment. Through awareness programs, preventive measures, and responsible practices, we strive to eliminate risks and safeguard lives. Every effort taken toward safety contributes to stronger communities and a safer society. Let us all act as ambassadors of safety and responsibility, creating a meaningful and lasting social impact.

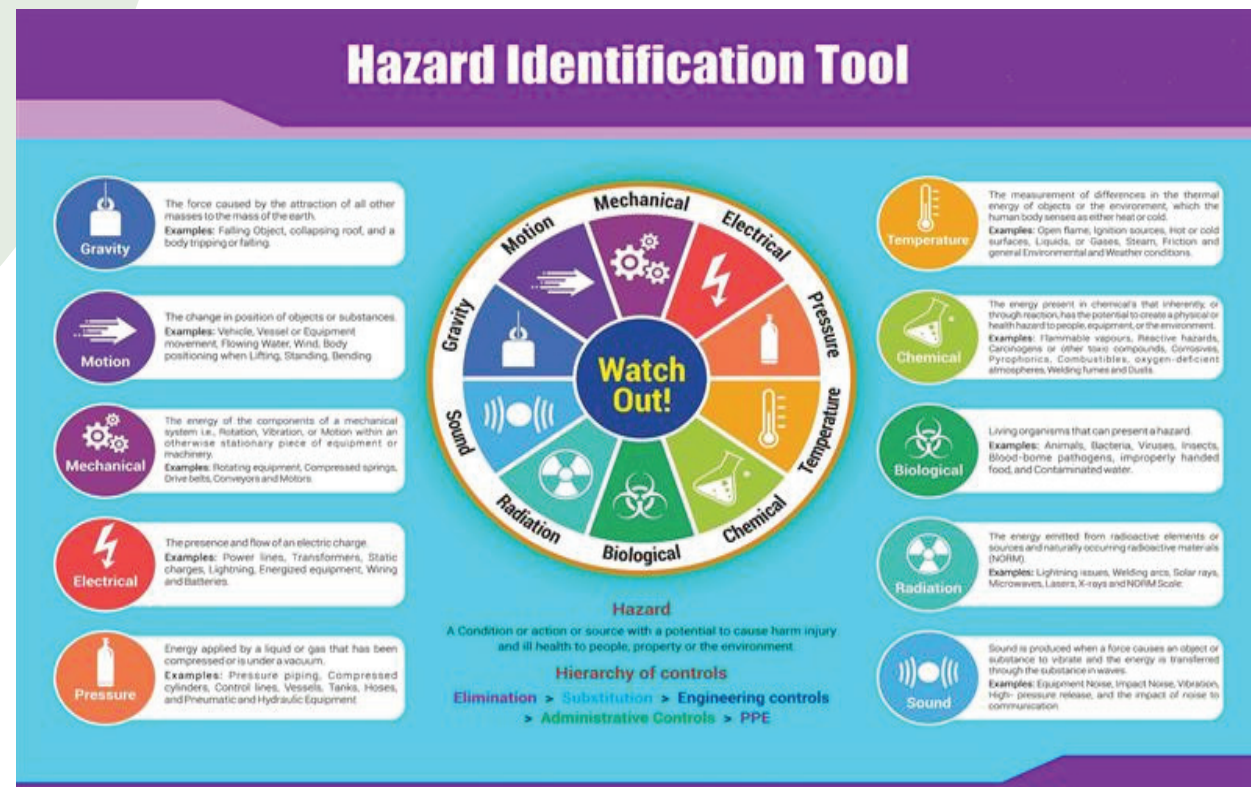

Uma Chigurupati
Executive Director

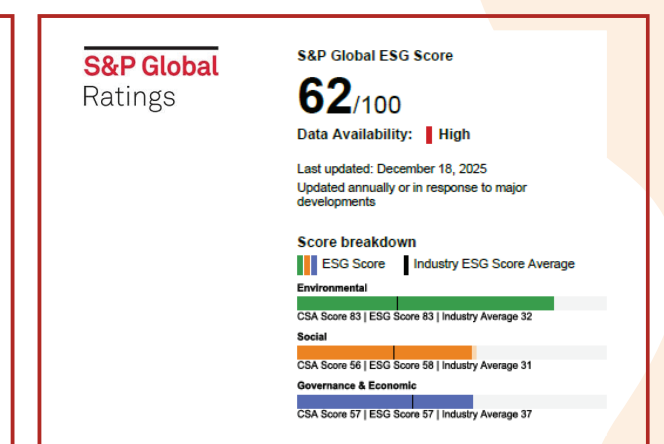

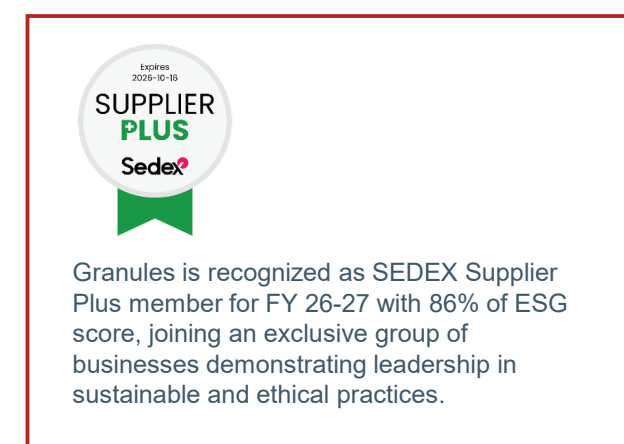

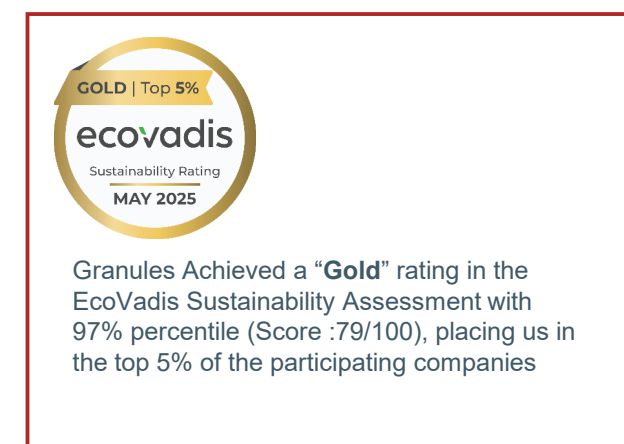

Safety isn't a rule book, it's discipline which ensures every person goes home safe, every single day.

Harsha Chigurupati
Executive Director

Safety is integral to operational excellence and long-term business success. A safe working environment enhances productivity, efficiency, and employee confidence while minimizing risks and disruptions. Embedding safety into every process and decision ensures business continuity and protects our most valuable assets our people. Safety is not confined to systems and procedures; it is a shared responsibility across the organization. Together, let us reinforce our commitment to safety and drive sustainable, high-performance operations.

Priyanka Chigurupati
Executive Director

A safety pledge stands as a meaningful commitment to prioritize awareness, caution, and safe behavior in daily routines and organizational processes.

I... believe, the well-being of the factory worker is the key to prosperity of his Family, the Industries and the Country. On this National Safety Day.

I...Solemnly affirm that I will uphold the Safety and Health as the Fundamental right of all the workers and that I shall endeavor to discharge my duties assigned to me achieving the objective of total safety, faithfully and with determination, contributing my might for higher productivity.

పరిశ్రమలోని కార్మికుని క్షేమమే అతని కుటుంబానికి, పరిశ్రమలకు మరియు దేశాభివృద్ధికి మూలమని నేను నమ్ముతున్నాను. ఈ జాతీయ భద్రతా దినోత్సవం సందర్భంగా.

నేను... కార్మికులందరి భద్రత మరియు ఆరోగ్యం వారి ప్రాథమిక హక్కు అని నేను మనస్ఫూర్తిగా అంగీకరిస్తున్నాను. సంపూర్ణ భద్రత అనే లక్ష్యాన్ని సాధించడానికి నాకు అప్పగించిన బాధ్యతలను అత్యంత నిబద్ధతతో, పట్టుదలతో మరియు విశ్వాసంతో నిర్వర్తిస్తానని... తద్వారా అధిక ఉత్పాదకతకు నా వంతు కృషి చేస్తానని ఈ సందర్భంగా ప్రతిజ్ఞ చేస్తున్నాను.

मेरा विश्वास है कि कारखाने के श्रमिक का कल्याण ही उसके परिवार, उद्योगों और देश की समृद्धि की कुंजी है। आज इस राष्ट्रीय सुरक्षा दिवस के अवसर पर मैं...

सत्यनिष्ठा से प्रतिज्ञान करता हूँ कि मैं सभी श्रमिकों की सुरक्षा और स्वास्थ्य को उनके मौलिक अधिकार के रूप में बनाए रखूँगा। मैं पूर्ण सुरक्षा के लक्ष्य को प्राप्त करने के लिए अपने सौंपे गए प्रत्येक दायित्व का निर्वहन पूर्ण निष्ठा, दृढ़ संकल्प और भरोसे के साथ करूँगा। अपनी सर्वोत्तम क्षमता का उपयोग करते हुए, मैं संगठन की उच्च उत्पादकता में सार्थक योगदान देने के लिए सतत प्रयासरत रहूँगा।

Safety is a core value that guides every action we take, not just a requirement to be followed. By staying vigilant, following procedures, and caring for one another, we prevent incidents and protect what matters most. Let us work together to ensure safe, responsible, and sustainable operations – every task, every day.

Srinivasu Metlapalli
 Vice President - EHS & Sustainability

Granules is pleased to introduce its Environment, Health, Safety and Wellness Policy, reaffirming our commitment to ethical business practices, employee safety, environmental protection, and sustainable operations. This policy provides a structured framework to achieve Zero Harm through strong governance, risk management, employee engagement, and continuous improvement.

Environment, Health, Safety and Wellness Policy

Granules Committed to uphold ethical business practices, employee safety, environmental protection, and sustainable operations respecting Human Life and Dignity through the following commitments:

- Ensure compliance with applicable EHS regulations and enforce adherence to our EHS and Sustainability policies among all stakeholders.
- Achieve Zero Harm to People and the Environment by proactively driving EHS risk reduction through comprehensive hazard identification, robust engineering controls in the planning, design, and execution of all projects and processes, ensuring inherently safer operations, and conducting systematic audits.
- Promote a healthy and safe ecosystem through the implementation of strong industrial hygiene practices, comprehensive occupational health, and wellness programs.
- Build a strong EHS culture by actively engaging employees and contractors, promoting a sense of responsibility and enhancing awareness.
- Working safely is a basic requirement for all employees. Promote a culture of Intolerance to any Safety Violation across the Organization. Outstanding commitment to safety will be recognized and rewarded.
- Proactively identify and act on leading indicators, investigate all incidents to prevent recurrence, and ensure strong emergency readiness through a robust management and response system.
- Assess training needs, deliver competency based training, and ensure open communication to strengthen a sustainable safety, health, and environmental culture.
- Implement a structured review process to evaluate EHS system performance and drive continual improvement through defined objectives and targets.
- Drive circularity by optimizing resource use and applying green chemistry principles, while advancing waste reduction, energy efficiency, and resource conservation to strengthen environmental sustainability through innovative and eco-friendly technologies.
- Promote sustainable procurement by partnering with suppliers to strengthen environmental, health and safety, and ethical practices, enabling a responsible and resilient supply chain.

This policy applies to all workers, contractors, and business partners engaged with Granules, covering all workplaces and associated operations. This policy will be reviewed as and when required, to ensure its relevance and alignment with evolving relevant standards and best practices.

Dr. Krishna Prasad Chigurupati
Chairman And Managing Director

Event-1 : Safety Flag Hoisting

The objective of hoisting a safety flag on National Safety Day serves several important purposes:

Symbolism of Commitment:

Raising a safety flag represents the organization's strong commitment to promoting safety awareness and safe work practices. It conveys that safety is a top priority and highlights the organization's dedication to maintaining a secure work environment.

Visibility and Awareness:

A prominently displayed safety flag acts as a constant visual reminder to employees, visitors, and the surrounding community about the importance of safety. Its presence helps reinforce safety consciousness and encourages everyone to integrate safe practices into their daily routine.

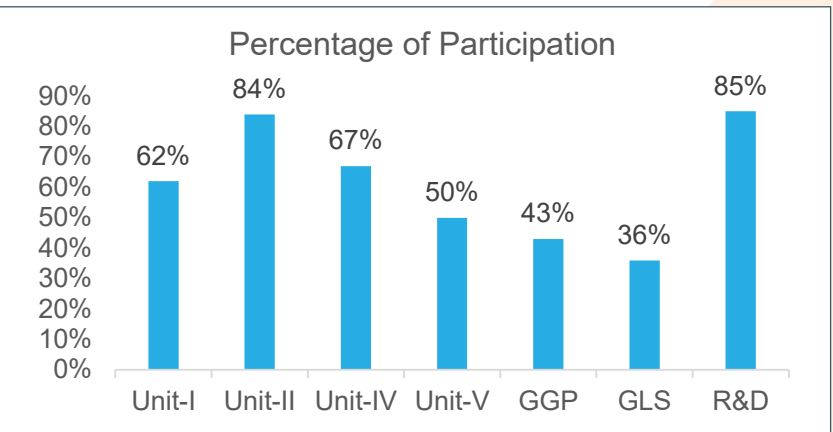

Unity and Solidarity:

The act of hoisting a safety flag promotes a sense of unity among employees. It reinforces the idea that safety is a shared responsibility one that relies on collective involvement, cooperation, and vigilance.

Inspiration and Motivation:

Seeing the safety flag can motivate individuals to stay alert and proactive about maintaining a safe workplace. It serves as a symbol that encourages continued commitment to safe behaviors.

Safety leadership is reflected in our everyday actions and decisions not just in policies. By strengthening awareness, ownership, and accountability at every level, we proactively reduce risks before incidents occur. When each of us takes responsibility for safety, we protect our people, our operations, and our future. Together, we build a safer, stronger, and more resilient organization.

Baskaran PN
President - API Operations

Inauguration of National Safety Day & Helium Balloon Hoisting

The inauguration of a helium balloon on the occasion of National Safety Day symbolizes our collective commitment to safety, health, and environmental responsibility. The helium balloon, rising freely into the sky, represents aspirations for a safer workplace, accident-free operations, and continuous vigilance in safety practices.

The key objectives of this symbolic inauguration are:

- To create awareness about the importance of safety in every aspect of work and daily life.
- To reinforce a safety-first culture, reminding everyone that safety is a shared responsibility.
- To mark the formal launch of National Safety Day celebrations and associated safety initiatives.
- To inspire employees and stakeholders to actively participate in maintaining safe and healthy working conditions.
- To symbolize transparency, positivity, and progress, aligning with the vision of zero accidents and zero harm.

Overall, the helium balloon inauguration serves as a powerful visual reminder that safety should always rise to the highest priority, guiding our actions and decisions throughout the year.

At Granules India, safety is not just an event or a compliance requirement it is a core value and a way of life. As we unite to observe Safety Day, we reaffirm our unwavering commitment to protecting our people, our workplaces, and our communities. I am especially encouraged by the growing emphasis on leading indicators of safety, such as near miss reporting, identification of unsafe conditions, and proactive interventions. These positive developments signal a maturing safety culture where employees feel empowered to speak up and act before incidents occur.

It is essential that we continue to lead by example and demonstrate visible commitment, ensuring that safety is fully integrated into our daily operations rather than being treated as a separate activity. Safety remains everyone's responsibility, every single day. Our journey of operational excellence and growth will only succeed if we make sure everyone goes home every day with safe and health.

I want to extend my sincere thanks to each of you for your commitment, vigilance, and contributions toward making Granules India a safer place. Together, let's keep building on our strong safety culture and set even higher benchmarks for the industry.

Stay alert. Stay safe. Let's continue to take care of one another.

Ramraj Rangarajalu
President – FD Operations

Inauguration of National Safety Day & Helium Balloon Hoisting

- Ms. Uma Chigurupati, Executive Director, inaugurated the Amrut Utsav event by launching a helium balloon and addressing all employees on the occasion of National Safety Day at the Gagillapur Unit.
- The Amrut Utsav event was inaugurated by the SLT members at Unit-I, who carried out the helium-balloon launch and addressed all employees on the occasion of National Safety Day
- In GLS event was Inaugurated by Hoisting the helium- balloon by EHS Manager.

Safety is strengthened through Scientifically thoughtful decisions and mutual respect. When we look out for hazards and Safety, we create a workplace where reliability and care go hand in hand. This commitment sustains our long-term success.

GSR Prasad

Safety Pledge

The objective of taking a safety pledge on National Safety Day serves :

Strengthen Commitment to Workplace:

Safety Employees reaffirm their responsibility to follow all safety rules and guidelines. The pledge reminds everyone that safety is a core organizational value, not just a procedure. It builds a sincere personal commitment toward maintaining a safe working environment.

Promote Awareness of Safe Practices:

The pledge helps individuals stay alert to workplace hazards and follow safe methods. It reinforces the importance of using protective equipment and adhering to safety protocols. By increasing awareness, it encourages employees to make safe choices every day.

Encourage a Culture of Collective Responsibility:

The pledge highlights that safety is a shared duty that involves cooperation among all employees. It motivates people to watch out for each other's well-being and correct unsafe behavior. Through teamwork, it strengthens a positive and supportive safety culture.

Inspire Proactive and Preventive Action:

The pledge encourages employees to identify risks before they lead to accidents. It promotes reporting unsafe conditions and taking early corrective actions. Being proactive helps create a workplace that prevents issues rather than reacting to them.

Build a Zero-Harm, Safety-First Culture:

The pledge aims to create an environment where injuries and accidents are minimized or eliminated. It encourages continuous improvement in safety standards and work practices. Ultimately, it supports the organization's vision of a healthy, accident-free workplace

The safety pledge serves as a powerful commitment that reinforces personal accountability and collective responsibility toward maintaining a safe workplace. By promoting awareness of hazards, encouraging proactive and preventive actions, and fostering teamwork, it ensures that safety remains a core value rather than just a set of rules.

Consistency in safe work practices creates reliability across the organization. Doing things correctly, every time, eliminates uncertainty and builds trust in our operations.

Dr. PV Srinivas
Chief Technology Officer

UNIT-II

Safety Rally

Safety rallies hold significant importance in promoting and reinforcing safety awareness and practices within an organization.

Spreading Awareness on Safety:

A safety rally helps spread awareness about the importance of safe practices among employees and the public. It highlights common workplace risks and the need for preventive measures in daily activities. By carrying safety messages into open spaces, it encourages everyone to remain alert and responsible.

Promoting Community and Employee Participation:

The rally motivates employees and community members to take part in safety initiatives actively. It creates an opportunity for people to come together and collectively support safety improvement. Through mass participation, it reinforces that safety is a shared responsibility involving everyone.

Effective Communication of Safety Messages:

The rally provides a dynamic platform to communicate safety messages in a simple and impactful manner. Posters, placards, and slogans help convey key safety instructions clearly and memorably. This approach ensures that safety messages reach a broader audience effectively.

Reinforcement of Discipline and Compliance:

A safety rally reinforces the importance of discipline in following safety rules and procedures. It reminds participants that consistent compliance plays a critical role in accident prevention. The collective message strengthens adherence to established safety standards.

Encouragement of Continuous Safety Awareness:

The rally acts as a trigger to sustain safety awareness beyond a single event or day. It encourages participants to carry safety consciousness into their routine work and personal life. This helps ensure that safety remains an ongoing priority rather than a one-time focus.

A safety rally was conducted in Unit-1, led by Mr. V. Pul Singh AVP Manufacturing & Operations and attended by around 250 employees, including contract employees.

Sustainable success is built on safeguarding our most valuable asset – human potential. When safety is deeply embedded into our systems and processes, it reinforces a culture where productivity, well-being, and long-term organizational resilience strengthen together.

Sanjay Kumar
Chief Strategy Officer

Event- 2: Fire Fighting Competition - Blaze & Flow Combat

The objective of a fire hydrant system operation competition is to promote proficiency, readiness, and teamwork among firefighters or personnel responsible for operating fire hydrant systems.

To enhance fire safety preparedness among employees:

This competition helps participants gain hands-on experience with both fire extinguishers and hydrant systems. It reinforces correct usage techniques and safety protocols required during emergencies. The activity ensures employees are better equipped to respond confidently and effectively in real fire situations.

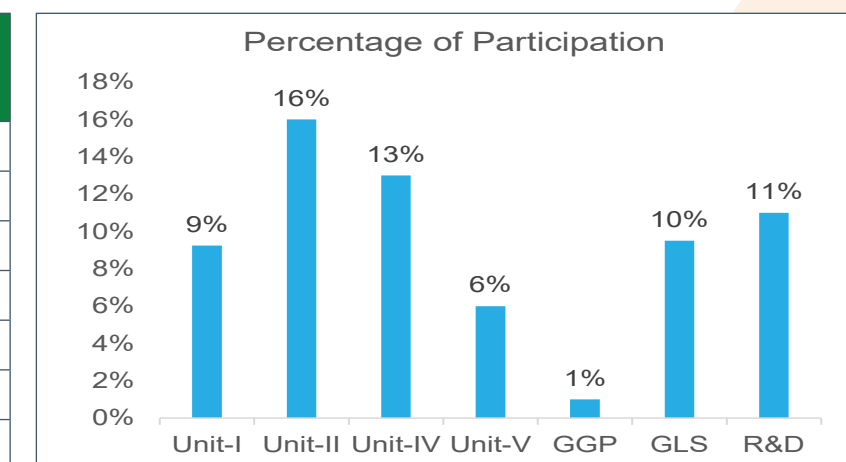

To build teamwork and coordination during emergency operations:

The event encourages team members to communicate clearly and function in a coordinated manner under time-bound tasks. It strengthens collaboration while handling hoses, hydrants, and extinguishing procedures.

To assess and improve response time and operational efficiency:

The competition allows evaluation of how quickly and accurately participants react to fire scenarios. It highlights strengths and identifies gaps in operational skills, equipment handling, and adherence to procedures. These insights help improve the overall emergency response capability of the organization.

Event- 3: SCBA Donning Competition - Jaldi Pehno, Suraksha Jeeto!

The objective is to reinforce the importance of SCBA proficiency, enhancing readiness and confidence during critical situations.

Assess the Participant's Ability to Don the SCBA Quickly and Correctly:

This objective focuses on evaluating how efficiently and accurately participants can don the Self-Contained Breathing Apparatus. It ensures they follow the correct sequence checking the cylinder, securing straps, ensuring proper seal, and activating the unit within the required time. Quick and correct donning is essential during real emergencies where delays can cost lives.

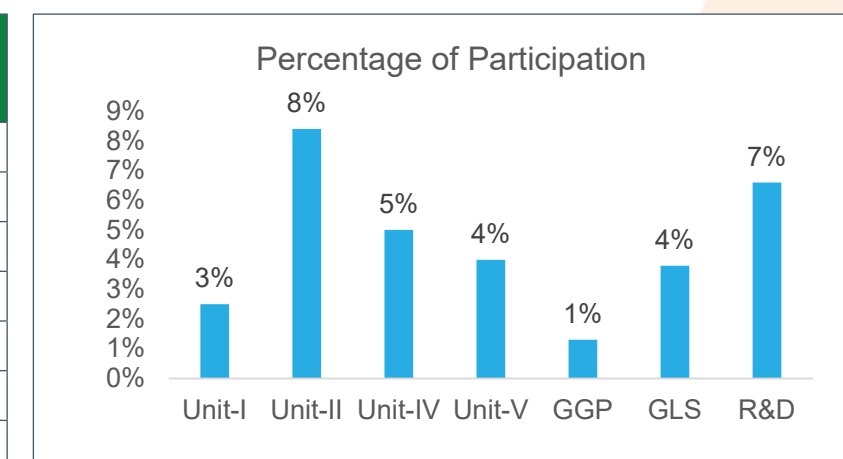

Reinforce Safe and Standardized Donning Procedures:

This objective ensures every participant uses the proper technique according to organizational or industry standards. By consistently practicing these steps, responders reduce chances of equipment failure, air leaks, or improper sealing. The competition helps build strong muscle memory so that safety procedures become instinctive in high-stress situations.

Build Confidence and Improve Performance Under Pressure:

This objective trains participants to stay calm, focused, and efficient while competing under timed conditions. It strengthens their ability to perform critical tasks under stress, simulating real-life emergency environments. This boosts confidence, readiness, and operational performance.

Event- 4: PPE Stall - PPE Lagao, Safety Badhao!

The objective is to highlight the critical role of PPE in everyday safety, empowering participants with the knowledge and confidence to stay protected and work smarter in any situation.

To Educate Participants on the Proper Selection and Use of PPE:

This objective focuses on helping participants understand which types of PPE are required for different workplace hazards such as head, eye, hand, respiratory, or chemical protection. It ensures they can identify the right equipment for the right task, improving preparedness and reducing risk exposure.

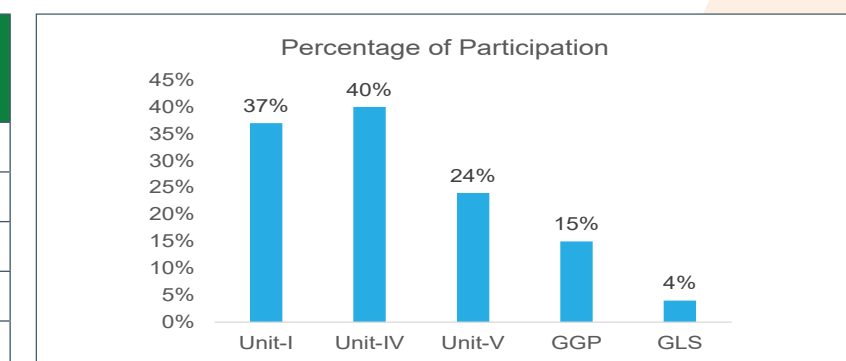

To Promote Awareness of Workplace Safety Standards and Compliance:

This objective aims to reinforce organizational and regulatory safety requirements related to PPE. By highlighting the importance of PPE compliance, maintenance, and periodic replacement, the stall encourages a stronger safety culture and supports ongoing efforts to reduce workplace injuries.

To Inspire Active Participation Through Interactive PPE Experiences

This objective focuses on making PPE learning exciting and hands-on by letting participants explore, handle, and try out different safety gear in a fun, engaging way. Through games, demos, and real-time practice, the stall turns learning into an experience boosting curiosity, strengthening awareness, and motivating everyone to use PPE confidently and consistently.

Event- 5: Emergency Mock drill - Aaj Ka Drill, Kal Ki Safety!

The objective is to enhance emergency-response readiness by encouraging participants to practice quick, coordinated actions in a realistic and engaging drill environment.

To Test Quick Decision-Making and Real-Time Emergency Response Skills:

This objective focuses on challenging participants to react swiftly, choose the right actions, and follow emergency procedures under pressure turning a serious drill into an exciting test of readiness and awareness.

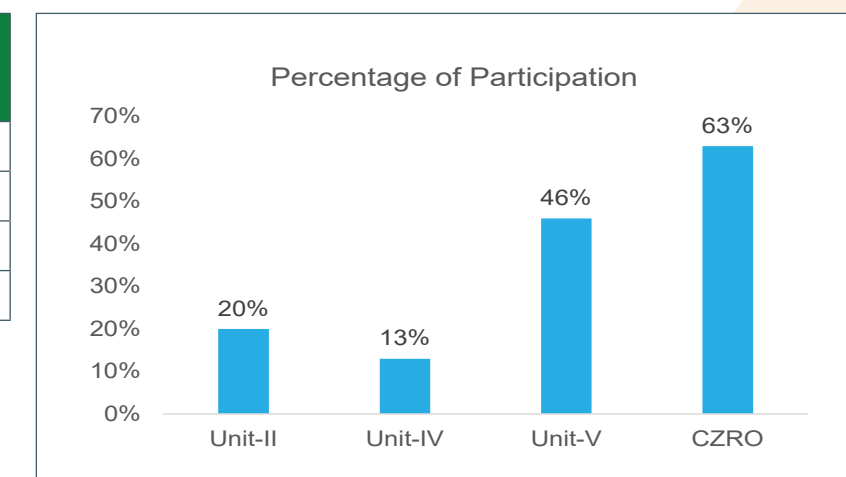

To Encourage Team Coordination and Effective Communication During Emergencies:

This objective aims to strengthen teamwork by pushing participants to coordinate, relay information clearly, and support each other making the competition both collaborative and high-energy.

To Build Confidence and Familiarity with Emergency Protocols Through Engaging Simulation:

This objective helps participants feel more prepared and confident by practicing evacuation, using emergency equipment, and navigating simulated crisis situations in a fun, interactive way.

Innovation thrives when safety is built in—not added later. It is the foundation, not a checkpoint. When we plan with intent and execute with discipline, we protect people and deliver excellence. This is how we work.

Dr. R. Manikandan
Sr.Vice President - R&D

Event- 6: Safety Snakes & Ladders

The objective is to.....

To Illustrate the Direct Link Between Actions and Consequences:

The game aims to visually demonstrate that workplace safety is a series of choices rather than luck. By mapping safe behaviors to "Ladders" and unsafe Shortcuts to "Snakes", employees can physically see how following protocols like LOTO or Machine Guarding leads to safe return home, while violations lead to injury or permanent disablement.

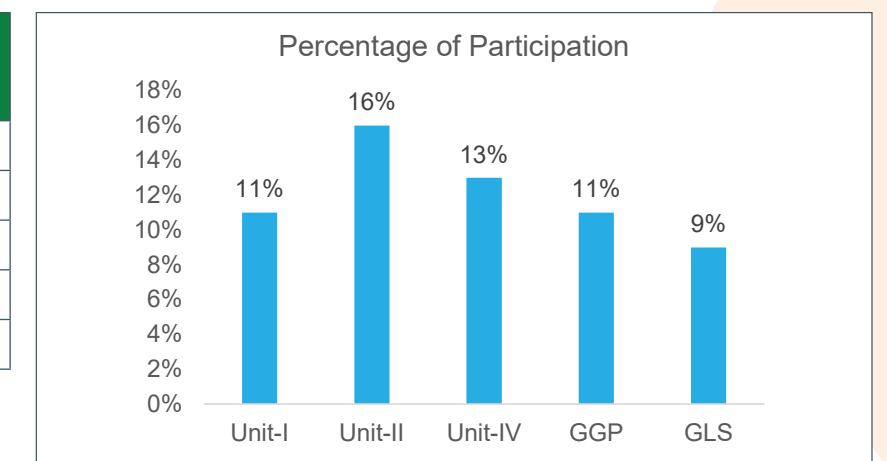

To Simplify and Reinforce Critical Safety Standards:

The Objective is to translate technical HSE regulations, such as the Factories Act 1948 or ISO standards into relatable, bite-sized scenarios. This reinforces the importance of using PTW and PPE in a way that is much more memorable and engaging than a traditional classroom lecture or manual.

To Foster a Proactive "Stop-Work" and Reporting Culture:

The game is designed to encourage employees to identify and report hazards before they lead to an accident. By rewarding players for "reporting all unsafe conditions", it builds a culture where workers feel empowered to intervene and prioritize long-term safety over short-term speed.

Event- 7: Hazard Hunt

The objective is to.....

To Identify Existing and Potential Workplace Hazards Beyond Routine Inspections:

This objective aims to uncover hazards that may be missed during regular safety inspections by involving employees who work in the area daily. Their practical experience and fresh perspective help identify unsafe conditions, unsafe acts, and near-miss situations that are not yet documented or addressed.

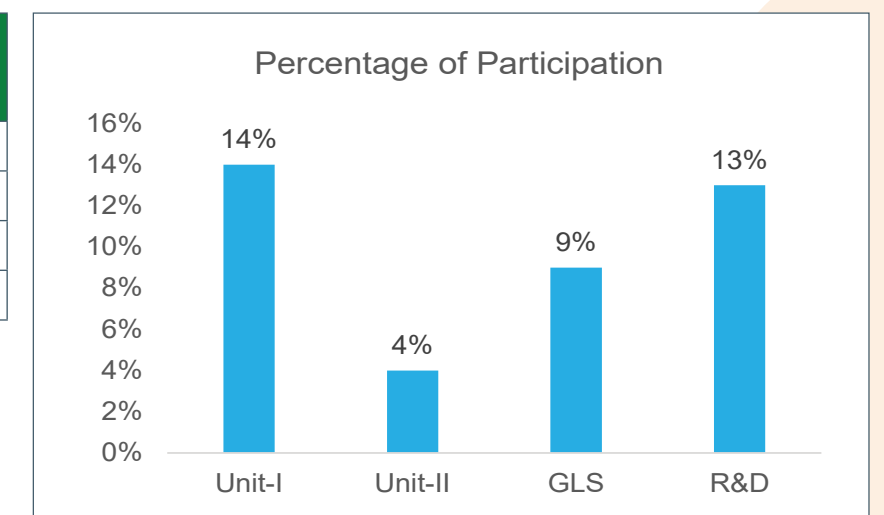

To Strengthen Employees' Hazard Recognition Skills During Normal Work Activities:

The competition helps employees sharpen their ability to recognize hazards as part of their everyday tasks. By actively observing their surroundings, participants learn to detect risks early, improving their situational awareness and reinforcing safe working behavior.

To Convert Identified Hazards into Corrective and Preventive Safety Actions:

This objective ensures that the Hazard Hunt leads to real safety improvements. The hazards identified are analyzed, prioritized, and addressed through corrective and preventive actions, helping to reduce the likelihood of accidents and creating a safer workplace.

Event- 8: Safety Poster Presentation – Safety Kala

The objective is to.....

To Create Safety Awareness:

This objective focuses on educating participants and viewers about potential hazards, safe work practices, and preventive measures. Safety posters use visual messages to simplify complex safety concepts, making them easy to understand and remember, thereby improving overall safety awareness.

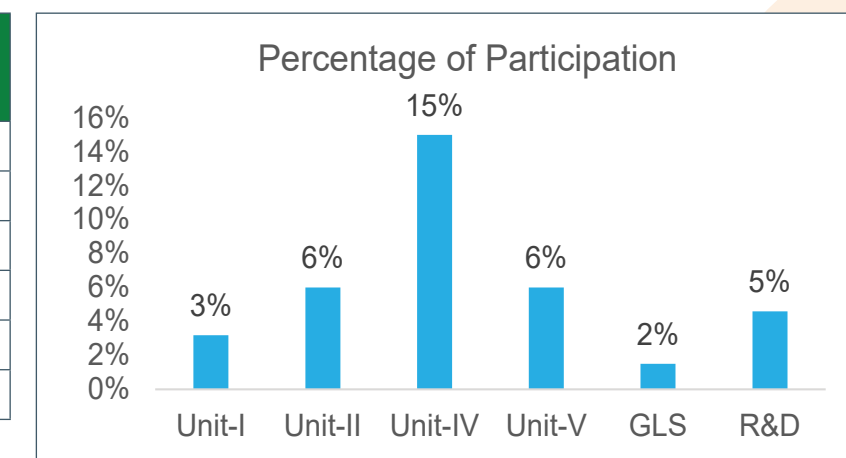

To Promote a Strong Safety Culture:

The poster presentation encourages active involvement and responsibility toward safety among employees/students. By participating creatively, individuals develop a positive attitude toward safety and understand that maintaining a safe environment is a shared responsibility.

To Reinforce Accident Prevention and Safe Behavior:

Through impactful slogans, illustrations, and messages, safety posters continuously remind individuals to follow safety rules and procedures. This helps reinforce safe behavior, reduce unsafe acts, and support the goal of preventing accidents, injuries, and occupational hazards.

Event- 9: Fire Safety & Emergency Preparedness Quiz (Online)

The objective is to.....

To Ensure Comprehensive Understanding of Fire Safety Principles:

This objective focuses on verifying that participants fully understand what causes fires, how they spread, and the conditions that make a workplace vulnerable. It includes awareness of common ignition sources, combustible materials, and unsafe behaviors.

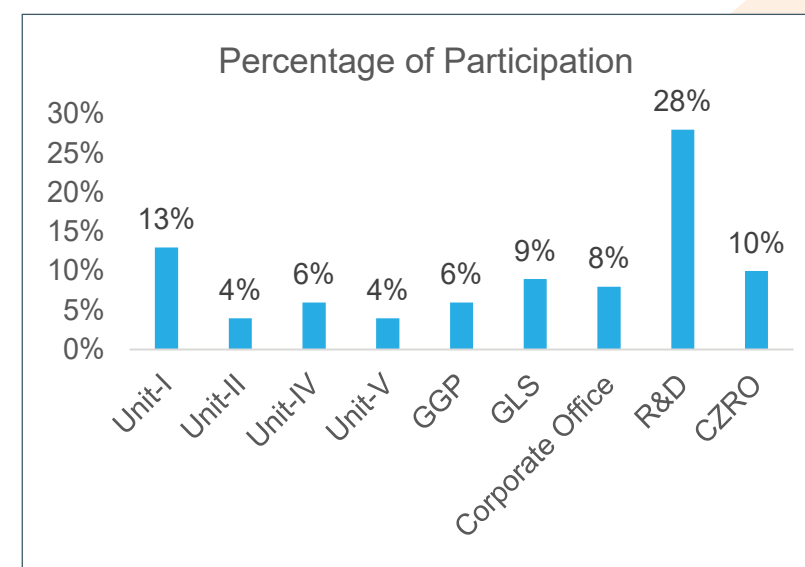

To Evaluate the Ability to Respond Effectively During Emergencies:

This objective checks whether individuals know the correct steps to take when faced with a fire or emergency situation. It includes recognizing alarms, following evacuation procedures, using designated routes, reporting incidents promptly, and assembling safely at meeting points.

To Measure Awareness and Proper Use of Firefighting & Emergency Equipment:

This objective assesses participants' understanding of the purpose, locations, and correct operation of emergency tools like fire extinguishers, alarms, hose reels, and first-aid kits. It includes knowing which extinguisher to use for specific fire types, when it is safe to attempt extinguishing a fire, and when to prioritize evacuation.

Event- 10: Process Safety Quiz (Online)

The objective is to.....

To Assess Understanding of Process Safety Fundamentals:

This objective evaluates participants' knowledge of core process safety concepts such as hazard identification, risk assessment, and safe operating limits. It ensures they understand how processes, equipment, chemicals, and human factors interact—and why proper controls are essential to prevent major incidents.

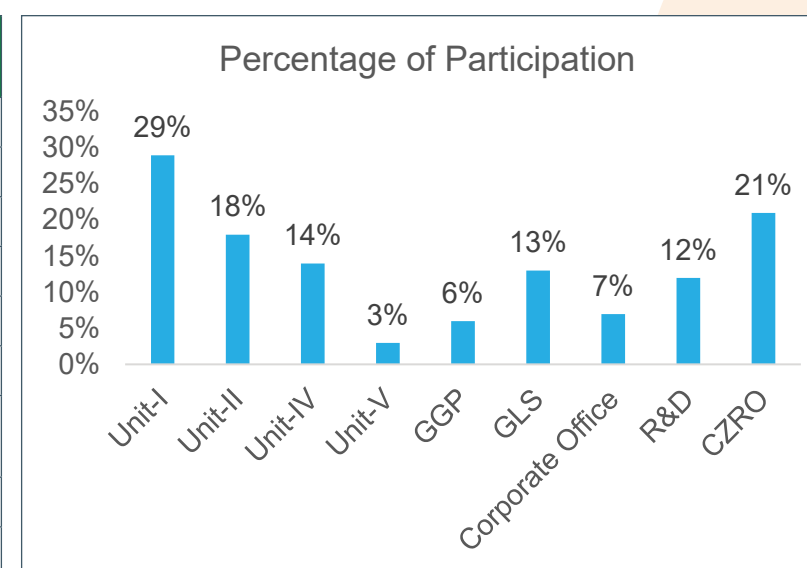

To Evaluate Awareness of Hazard Controls and Safety Systems:

This objective checks whether individuals can recognize the various layers of protection—engineering controls, administrative controls, alarms, relief systems, interlocks, and safety instrumented functions. It measures their ability to identify when controls are compromised and understand how each safeguard contributes to preventing or mitigating loss-of-containment events.

To Test Ability to Respond Safely to Abnormal Situations:

This objective focuses on ensuring that participants know how to react when operations deviate from normal conditions. It covers recognizing early warning signs, following emergency operating procedures, communicating deviations promptly, and taking correct actions to minimize escalation. The aim is to promote disciplined operations and a strong process safety culture.

Event- 11: Electrical Safety Quiz (Online)

The objective is to.....

To Assess basic knowledge of electrical hazards and risks:

This objective focuses on determining whether participants can recognize common electrical hazards and understand the potential dangers associated with electricity, such as electric shock, burns, and fire risks.

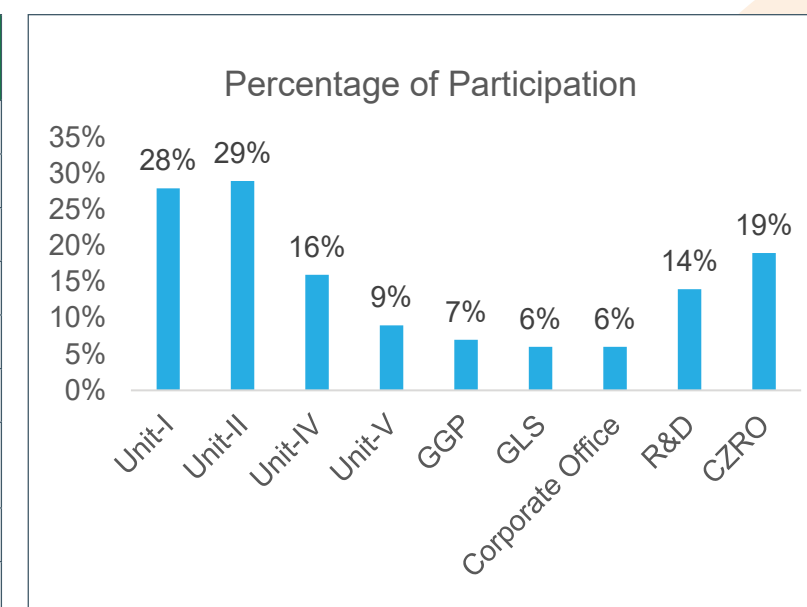

To Improve awareness of preventive measures to avoid electrical accidents:

This objective focuses on ensuring participants understand how electrical accidents can be prevented by following proper precautions, identifying unsafe conditions early, and maintaining electrical equipment in good condition.

To Promote safe behavior and compliance with safety rules:

This objective is intended to reinforce the importance of following electrical safety guidelines, standards, and procedures, encouraging individuals to adopt safe habits and a responsible attitude toward electrical safety.

Event- 13: Essay Writing Competition

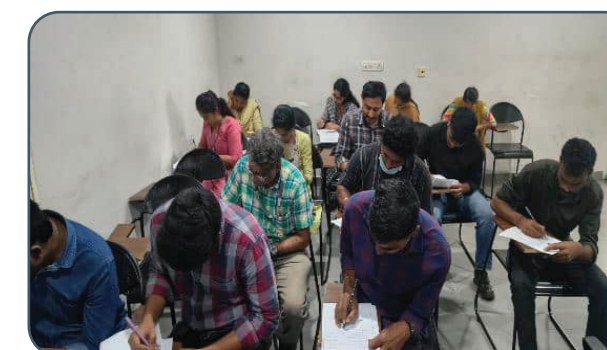

On the occasion of National Safety Day, the plant conducted an essay competition to strengthen safety awareness and reinforce safe work practices among employees. The competition provided a platform for participants to share their knowledge, insights, and commitment towards maintaining a safe and healthy workplace. This initiative highlighted the organization's dedication to promoting a proactive safety culture and encouraging collective responsibility for safety at all levels.

Objectives:

- To create awareness about the importance of safety, health, and environmental protection at the workplace.
- To encourage employees to actively think about and contribute ideas for improving safety practices.
- To foster a strong safety culture by promoting individual responsibility and safe behavior.

UNIT-IV

UNIT-IV

UNIT-V

UNIT-V

Event- 14: Rangoli Competition

On the occasion of National Safety Day, the plant organized a Rangoli Competition to creatively promote safety awareness among employees. The competition encouraged participants to express important safety messages through colors, symbols, and artistic designs. This initiative combined creativity with safety consciousness, making safety awareness engaging and visually impactful across the workplace.

Objectives:

- To spread safety awareness in a creative and visually appealing manner.
- To encourage employee participation and involvement in National Safety Day celebrations.
- To reinforce key safety messages and promote a positive safety culture within the plant.

UNIT-I

GLS

Event- 15: Safety Skit

On the occasion of National Safety Day, a Safety Skit was organized by employees at UNIT-IV to promote awareness on workplace and personal safety in an engaging and impactful manner. The skit creatively depicted real-life scenarios related to industrial safety, highlighting unsafe acts, potential hazards, and the importance of following safety rules and procedures. The skit effectively communicated the significance of safety in everyday work life. The performance successfully captured the attention of employees and reinforced the message that safety is a shared responsibility.

Objectives:

- To create awareness on workplace safety through an interactive and engaging medium.
- To educate employees on safe behaviors and the consequences of unsafe practices.
- To reinforce safety rules, procedures, and the importance of personal responsibility.
- To promote a strong and proactive safety culture across the plant.

Event- 16: Safety Speech by the Employees Children

As part of National Safety Day celebrations, a Safety Talk by Employees' Children was conducted at UNIT-IV to emphasize the importance of safety from a family and societal perspective. Children delivered short speeches on various safety topics such as road safety, workplace safety, home safety, and environmental protection. Their innocent yet impactful messages highlighted how safe practices at work ensure the well-being of employees and their families. This initiative emotionally connected safety with family responsibility, making the message more meaningful and memorable for all employees.

Objectives:

- To promote safety awareness by involving employees' families, especially children.
- To remind employees that safety at work ensures a safe return home to their loved ones.
- To instill safety values in both employees and the younger generation.
- To strengthen emotional involvement and commitment toward maintaining a safe workplace.

Event- 17: Defensive Driving Training by Chola MS

On the occasion of National Safety Day, the Gagillapur Unit organized a Defensive Driving Training Program for Bus Drivers and Truck Drivers in association with (Chola MS). The training focused on improving driving skills, enhancing road safety awareness, and reducing the risk of road accidents. Professional trainers from Chola MS covered key aspects such as defensive driving techniques, hazard identification, safe speed management, fatigue management, and emergency handling. The session was interactive and practical, enabling drivers to understand real-life road scenarios and adopt safe driving behaviors both within and outside the plant premises.

Objectives:

- To enhance defensive driving skills among bus and truck drivers.
- To reduce road traffic accidents and promote safe driving practices.
- To create awareness about traffic rules, hazard recognition, and risk control measures.
- To reinforce the organization's commitment to road safety and safe driving culture.

Event- 18: First Aid Training by St. John Ambulance Services

On the occasion of National Safety Day, the Granules Life Sciences conducted a First Aid Training Program in collaboration with St. John Ambulance Services to enhance emergency preparedness among employees. The training focused on providing essential first aid knowledge and practical skills required to respond effectively during medical emergencies at the workplace. Certified trainers from St. John Ambulance Services delivered comprehensive sessions covering topics such as basic life support (BLS), CPR, wound management, bleeding control, burns, and response to cardiac and other medical emergencies.

The training included hands-on demonstrations and interactive discussions, enabling participants to gain confidence in administering first aid until professional medical assistance arrives. This initiative strengthened the plant's emergency response capability and reinforced the importance of timely and correct first aid intervention.

Objectives:

- To equip employees with essential first aid knowledge and life-saving skills to handle medical emergencies effectively.
- To improve quick and correct emergency response, thereby minimizing injury severity and potential loss of life.
- To strengthen workplace health, safety preparedness, and overall employee well-being.

Session on Safe & Sustainable Operations – Role of Cross-Functional Leadership- FTCCI

A program on "Safe & Sustainable Operations – Role of Cross-Functional Leadership" was held on 8th April at FTCCI, Hyderabad. The program brought together industry leaders to deliberate on the importance of leadership collaboration in strengthening safety performance and sustainability practices.

Representing our organization, Mr. Srinivasu Metlapalli, Vice President – EHS & Sustainability, participated in the session and shared his insights on the significance of cross-functional leadership in driving safe, compliant, and sustainable operations. He highlighted how alignment between functions, leadership ownership, and proactive decision-making play a crucial role in building a strong safety culture while supporting long-term business sustainability.

His participation at this FTCCI forum reflects our organization's continued commitment to safety excellence, sustainable operations, and active engagement with industry platforms.

Closing Ceremony – Unit - I

The closing ceremony of the National Safety Day Celebrations was successfully held at UNIT-I in the presence of our distinguished Chief Guest G.Nehru, Deputy Chief Inspector of Factories. The event highlighted our continued commitment to fostering a strong safety culture across the organization.

The program commenced with an address by our Plant Head, Mr. P. U. L. Singh, who emphasized the importance of safety at the workplace and encouraged everyone to make safety a way of life rather than just a compliance requirement.

Following this, the Safety Pledge was administered by Mr. Rajesh, GM - QA reaffirming our collective responsibility towards maintaining a safe and healthy work environment. Mr. Srinivasu Metlapalli, Corporate EHS & Sustainability Head, shared valuable insights on safety practices, sustainability initiatives, and the role of leadership and employees in achieving zero incidents.

The ceremony was further graced by Mr. Baskaran PN, API Operations President, who felicitated the Chief Guest by presenting a shawl as a gesture of respect and appreciation.

As part of the celebrations, prizes were distributed to the winners of various safety-related competitions conducted during the National Safety Day celebrations, recognizing their active participation and commitment to safety excellence. The event concluded on a cheerful note with the distribution of sweets, marking a successful and impactful closure to the National Safety Day celebrations.

Closing Ceremony – Unit - IV

The Closing Ceremony of the National Safety Day Celebrations was successfully conducted at UNIT-IV, reinforcing our organization's commitment to workplace safety and employee well-being.

The program began with an address by the Plant Head, Mr. Sameer Gulam Taher Shaikh, who highlighted the importance of adopting safe practices in day-to-day operations and encouraged employees to remain vigilant and proactive in maintaining a safe work environment.

This was followed by the Safety Pledge, reaffirming the collective responsibility of all employees towards safety. Mr. Anand Babu, DGM- QA, shared his thoughts on the significance of safety and quality going hand in hand to ensure operational excellence and compliance.

As part of the celebrations, prizes were distributed to the winners of various safety-related competitions conducted during the National Safety Day celebrations, recognizing their enthusiasm, creativity, and commitment towards promoting safety awareness.

The event concluded on a positive note with the distribution of sweets, marking the successful closure of the National Safety Day celebrations at UNIT-IV.

Closing Ceremony – Unit - V

The National Safety Day Celebrations at UNIT-V concluded with a well-organized closing ceremony that reinforced the organization's commitment to safety and operational excellence.

The event began with an address by Mr. Naveendiran Loganathan – Plant Head, who spoke about the importance of creating a safe workplace through discipline, awareness, and shared responsibility. He encouraged employees to actively participate in safety initiatives and follow safe practices consistently.

The Safety Pledge was subsequently administered, reminding all employees of their responsibility towards maintaining a safe and healthy work environment. Mr. Selva Kumar.D, GM- Engineering, shared his perspectives on integrating safety with quality systems to ensure compliance, reliability, and continuous improvement.

As part of the celebrations, prizes were distributed to the winners of various safety-related competitions conducted during the National Safety Day celebrations, recognizing their enthusiasm, creativity, and commitment towards promoting safety awareness.

The event concluded on a positive note with the distribution of sweets, marking the successful closure of the National Safety Day celebrations at UNIT-V.

Closing Ceremony – GLS

The National Safety Day celebrations at GLS concluded successfully with a well-coordinated closing ceremony that reaffirmed the organization's strong commitment to safety and operational excellence.

The programme commenced with an address by Mr. Sandip Bankar, Plant Head, who emphasized the significance of fostering a safe workplace through discipline, awareness, and collective responsibility. He urged employees to actively engage in safety initiatives and consistently adhere to safe work practices.

This was followed by the administration of the Safety Pledge, reiterating every employee's responsibility toward ensuring a safe and healthy work environment. Mr. Prashanth Vadde, AVP – Quality, then shared his insights on integrating safety with quality systems to enhance compliance, reliability, and continuous improvement.

As part of the celebrations, prizes were awarded to the winners of various safety-related competitions conducted during the National Safety Day programme, recognizing their enthusiasm, creativity, and dedication to promoting safety awareness. The event concluded on a positive and celebratory note with the distribution of sweets, marking the successful completion of the National Safety Day celebrations at GLS.

Closing Ceremony – Unit-II

The National Safety Day celebrations at Unit-II concluded with a well-organized closing ceremony, reflecting the organization's unwavering commitment to safety excellence and operational discipline.

The program began with an address by Mr. Srinivasa Guntu, Plant Head, who emphasized the importance of discipline, awareness, and shared responsibility in creating a safe workplace. He encouraged employees to proactively participate in safety initiatives and adhere consistently to safe work practices.

The Safety Pledge was administered by the SLT team, reinforcing the collective commitment of employees toward maintaining a safe and healthy working environment. Highlighted the critical integration of safety with quality systems, stressing its role in ensuring compliance, operational reliability, and continuous improvement.

As part of the celebrations, winners of various safety-related competitions conducted during National Safety Day were felicitated, acknowledging their enthusiasm, creativity, and commitment to promoting safety awareness across the unit.

The event concluded on a pleasant note with the distribution of sweets, marking the successful completion of the National Safety Day celebrations at Unit-II.

Unit-II- Winners

Name of the Competition	Competition Coordinator	Name of the Employee (Winners & Runner up)	Dept.	Results	Duration/ Marks
Fire Hydrant Operations	Mr. Suvarna Raju	PSSV Prasad	PB-III	First	40.25 Seconds
		K. Thiresh			
		S. Mohan Goud			
		Naveen			
		Nagaraju	PB-III	Second	45.50 Seconds
		Ram Suresh			
		Dinsh			
		Bala Krishna			
Fire Safety Quiz	Mr. Sathish	K.Siddaiah	PB-III	First	-
