This was achieved with a profitable Formulations growth of 18%, even though we proactively paused Gagillapur’s production operations in Sep-24 for more than a month to re-assess the risks and undertake necessary USFDA remediation activities. Productivity of Gagillapur facility has been lower in H2 FY25 with ongoing remediation activities. Our strong financial performance reflects the success of our strategic initiatives, particularly our focus on enhancing our product mix by prioritizing high-margin offerings and expanding our portfolio of non-legacy molecules. This reflects the strength and adaptability of our business model, and our unwavering commitment”.
