

## Granules Life Sciences Receives VAI Classification following US FDA Inspection

**Hyderabad, March 31, 2026:** Granules India Limited today announced that its wholly owned subsidiary, Granules Life Sciences Private Limited (GLS), has concluded a recent US FDA inspection of its manufacturing facility at Shamirpet, Telangana, with an inspection classification of Voluntary Action Indicated (VAI).

The Establishment Inspection Report (EIR) was issued following a current Good Manufacturing Practice (cGMP) and pre-approval inspection (PAI) of the oral solid dosage manufacturing operations conducted between December 15 and 19, 2025.

The inspection is now closed, and no regulatory action has been recommended.

**Dr. Krishna Prasad Chigurupati, Chairman and Managing Director, Granules India Limited, said, “While receiving the classification is a step in the right direction, we recognize that quality is not a one-time milestone but an ongoing commitment. It will continue to remain a core pillar of utmost importance across all Granules sites, guiding our actions, investments, and culture every day.”**

This development further strengthens Granules India’s finished dosage manufacturing capabilities by enabling multi-site manufacturing for the approved products.
